### Job Summary:

We are seeking a **Vue.js Developer** with **2 to 3 years of experience** to join our dynamic development team. The ideal candidate will be responsible for building and maintaining modern, user-friendly web applications using Vue.js. You should have a solid understanding of front-end technologies, RESTful APIs, and component-based architecture.

### Key Responsibilities:

Develop responsive web applications using **Vue.js** and related ecosystem (Vuex, Vue Router).

Translate UI/UX design wireframes into high-quality code.

Integrate front-end components with **RESTful APIs** and backend services.

Optimize application performance for speed and scalability.

Write clean, maintainable, and well-documented code.

Troubleshoot and debug existing applications.

Collaborate with UI/UX designers, backend developers, and QA teams.

Stay updated with the latest trends in front-end development.

### Requirements:

2 to 3 years of hands-on experience in **Vue.js** development.

Strong proficiency in **JavaScript (ES6+), HTML5, and CSS3**.

Experience with **Vuex, Vue Router**, and component-based architecture.

Familiarity with RESTful APIs and asynchronous request handling (Axios or Fetch).

Good understanding of **Git** and version control workflows.

Experience with build tools like **Webpack, Vite**, or **NPM/Yarn**.

Knowledge of testing frameworks such as **Jest** or **Mocha** is a plus.

Experience working in an **Agile/Scrum** environment.
